

- (1) Attention, students. The weather will be very hot this week, so here are some ways to stay cool. First, please bring a bottle of water to school. Also, you may use paper fans in class. And finally, you may also wear your gym clothes instead of your regular school uniforms. These things should help you stay cool.

Q. What is one way that students are told to stay cool?

- | | |
|--------------------------------|--------------------------------|
| 1 Play sports indoors. | 2 Buy water bottles at school. |
| 3 Use paper fans during class. | 4 Stay in their classrooms. |

- (2) There was a famous musician from the United States whose name was George Gershwin. When he was a boy, he went to many orchestra concerts. After he got home, he could play the music he had heard on the piano in his room. Everyone was surprised that Gershwin was able to play difficult music without looking at a music book.

Q. Why were people surprised by George Gershwin?

- | | |
|---|-------------------------------|
| 1 He was the youngest orchestra member. | 2 He never went to a concert. |
| 3 He could play music from memory. | 4 He never listened to music. |
